

Dormant Account Reminder

Avoid a dormant account fee by keeping your account active. What does active mean? Use your account at least one time every 12 months and your account stays active. You can deposit or withdrawal as little as 1 penny for it to count as active. The purpose of this fee and process is to insure our members remember they have an account at the Credit Union. If an account is dormant the money remaining will be turned over to the state after 5 years of being in a dormant status.
